

**Technology Strategic Plan Template**  
*(Small Counties have the option to not complete this section)*

This section includes assessment of the County's current status of technology solutions, its long-term business plan and the long-term technology plan that will define the ability of County Mental Health to achieve **integrated information systems infrastructure** over time.

**Current Technology Solutions Assessment:**

List below or attach the current technology systems in place.

- ✓ Systems overview:

---

---

---

---

---

---

List or attach a list of the hardware and software inventory to support current systems:

- ✓ Hardware:

---

---

---

---

- ✓ Software:

---

---

---

- ✓ Support (i.e. maintenance and/or technical support agreements):

---

---

---

**Plan to achieve Integrated Information Systems Infrastructure (IISI) to support MHSA Services:**

Describe the plan to obtain the technology and resources not currently available in the county to implement and manage the IISI. (County may attach their IT Plan or complete the categories below)

- ✓ Describe how your technology projects associated with the Integrated Information System Infrastructure will accomplish the goals of the county MHSA Three-year Plan.

---

---

---

- ✓ Describe the new Technology System(s) required to achieve an Integrated Information System Infrastructure:

---

---

---

- ✓ Note the Implementation Resources currently available

Oversight Committee:	Yes__	No__
Project Manager:	Yes__	No__
Budget:	Yes__	No__
Implementation Staff in place:	Yes__	No__
Project Priorities determined:	Yes__	No__

- ✓ Describe plan to complete resources marked no above:

---

---

---

- ✓ Describe the technology project priorities and their relationship to supporting the MHSA Programs in the County:

---

---

---
